Exhibition

INTERNATIONAL ARTISTS EXHIBITION (NON-MEMBERS)

This show is unique for CGS and features work by International Glass Artists (mainly non-members). We wished to expand the knowledge and depth of Glass Art worldwide and share ideas and skill across an International platform, both with our members but also to artists and collectors further afield. It is possibly our most exciting exhibition yet and we were flooded with submissions from as far away as New Zealand, Japan and Canada. Selection was tough, but 44 glass artists have been selected for the show, we hope you enjoy this superb perspective of international glass and a big thank you to all those that applied.
